

Savings. Convenience. Peace of mind.

Get it all with our
home delivery pharmacy.

If one less thing to do in your day sounds good, you can get your prescription medications delivered to your home instead of picking them up at the pharmacy. It's easy to set up home delivery for the prescriptions you take long-term for conditions like diabetes or asthma. You'll get a 90-day supply with free standard shipping. And it may save you money.

With home delivery, you get:

Savings

Many medicines cost less when you get a 90-day supply instead of three 30-day supplies.

Convenience

You can skip the trip to the pharmacy. First-time home delivery orders take about two weeks, and refills take 3 to 5 days. You can set up automatic refills, too.

Peace of mind

You'll be less likely to miss a dose and more likely to stay on track with the treatment your doctor prescribed.*
